### JOB'S EXPERIENCE

---

#### Web Developer

EDUCAMÁS

November of 2021 to December of 2021 (Final project)

- I designed and created a graphical interface for the web application, in addition to integrating an intuitive and adaptable user experience.
- I designed the logic and created solutions for the actions requested in the web application
- Together with my colleagues, I managed to give shape and structure to the architecture proposed by the Software Architect, emphasizing the client's specifications.

#### Administrative assistant

CENTRO DE INVESTIGACIÓN Y DESARROLLO EN CIENCIAS  
TRIBUTARIAS Y ADUANERAS CID TAX SAS

June of 2021 to July of 2021 (Holiday season work)

- Responsible for the collection and organization of data on municipal and departmental tax administrations, for a research project
- I managed to reduce the time of downloading and storing data through a bot programmed in python
